TECHNICAL SKILLS

Languages: Java, JavaScript, HTML, CSS
Frameworks: Spring Boot, React.js, Tailwind CSS
Databases: PostgreSQL, MongoDB, MySQL, Redis, Firebase
Tools: Docker, Git, Postman, GitHub Actions (CI/CD), Railway, IntelliJ IDEA
Backend: RESTful APIs, Microservices, Elasticsearch, JPA/Hibernate
Core CS: OOP, DSA, Multithreading, Software Design Patterns, Exception Handling, Database Design

EXPERIENCE

Times Of India

April 2025 – June 2025

Backend Developer Intern

New Delhi

- Developed ImageGuard, a secure image management platform handling upload, storage, and access control for authenticated users.
- Built secure authentication and authorization pipeline for ImageGuard, integrating user verification, server-side validation, and watermarking to protect image assets from unauthorized access.
- Collaborated with cross-functional teams to test and refine detection logic, reducing false alerts and improving overall system reliability.

PROJECTS

DevConnect 🌐 | *Spring Boot 3, JWT, React.js, Tailwind CSS, JS, PostgreSQL, Elasticsearch 8.11.1, Maven, Docker*

- Crafted a scalable developer social platform using Spring Boot 3 and React.js with JWT-based authentication and role-based access control.
- Applied layered MVC architecture with PostgreSQL and pagination techniques (including infinite scroll) to support smooth data loading and better performance.
- Engineered Elasticsearch to enable fast keyword-based search across user-generated content and application data.

MindScribe 🌐 | *Java 17+, Spring Boot, React, Maven, MongoDB, Redis, SonarCube, Postman, Railway*

- Architected a secure digital journaling application using Spring Boot and React, enabling users to create, manage, and organize private journal entries.
- Designed a microservices-oriented backend with JWT authentication, exposing 10+ REST APIs with modular architecture for scalability and maintainability.
- Integrated MongoDB Atlas for flexible data storage and Redis caching to reduce database load and improve API responsiveness.

Netflix-GPT 🌐🌐 | *React, Vite, Firebase Authentication, Tailwind CSS, Node.js, OpenAI GPT API, Mock Data*

- Integrated OpenAI GPT APIs into a React-based frontend to enable AI-powered content recommendations and dynamic text generation.
- Implemented Firebase Authentication with protected routes to secure user access and manage sessions effectively.
- Built reusable and responsive UI components using Tailwind CSS, ensuring consistent experience across multiple screen sizes.

EDUCATION

Bennett University

2022-Present

Bachelor of Technology in Computer Science (GPA: 8.75 / 10)

Greater Noida, U.P.

ACHIEVEMENTS

- **Competitions:** Secured **2nd Rank in EY CAFTA Case Championship Mega Edition 2024** (Round 1) and 4th rank in Final Round.
- **Innovation Recognition:** Awarded two state-level and two **national-level Science Exhibition awards** at **IIT-DELHI**, demonstrating technical expertise and real-life issue resolution.
- **Contributed** to innovative tech solutions as a participant in the **Google Developer Groups (GDG) on Campus Solution Challenge India 2025**.
- **Open Source:** Earned the **Pull Shark Badge** on GitHub for active open source contributions.
- **Conference Publication:** Research paper "Student Style" **accepted at ICRAET-2024** on 06th Jun 2024 at Munnar, India.
