Address: Delhi, India.

Summary

Full-Stack Software Developer with expertise in Java, Spring Boot, React, Next.js, and SQL. Skilled in end-to-end development, API design, database management, and deployment on VPS/AWS. Successfully delivered projects like the SoftCrayons website, CSB Bank CTS system, and BDO Bank solutions, while also providing industrial training to students on real-world projects and technologies.

Professional Experience:

Softcrayons Tech Solutions Ltd.

December/2023 – Working

Software Developer & Trainer

- Designed and developed the complete Soft Crayons website from scratch using modern web technologies.
- Implemented responsive UI/UX for cross-platform compatibility (desktop, tablet, mobile) ensuring accessibility and smooth user experience.
- Provided Industrial Training to Students, based on real world projects and scenarios.
- Integrated dynamic features including course listings, inquiry/contact forms, testimonials, and blog sections with optimized navigation.
- Developed secure back-end APIs using Spring Boot for managing courses, enquiries, users, and content.
- Implemented image and file upload system with CDN/static resource handling for optimized performance.
- Optimized website for SEO (meta tags, schema, sitemaps, page speed improvements) to rank on Google and increase organic traffic.
- Database design and integration (MySQL) for handling courses, users, and enquiries with efficient CRUD operations.
- Deployed website on VPS (AWS/Nginx) with SSL integration, Gzip/Brotli compression, caching, and domain management for production readiness.
- Implemented admin panel/dashboard for managing courses, enquiries, testimonials, blogs, and website content dynamically.
- Enhanced performance using lazy loading, code splitting, image optimization, and minimized build size for faster page load.
- Ensured security best practices (JWT authentication, form validation, XSS/CSRF protection, HTTPS enforcement).

Imageinfo Systems Pvt Limited.

October/2022 – November-2023

Software Developer

- Collaborated with Development and testing teams to develop software and implement cutting-edge software solutions.
- Client requirements: Utilized a variety of programming languages and tools to deliver high-quality, scalable, and maintainable code.
- Full Stack Development: Development of full-stack application, from concept to deployment, using technologies such as Zk studio for the front end and JAVA for the back end.
- Database Management: Designed and optimized relational databases.
- Collaborative Problem-Solving: Collaborated with QA teams to identify and address software defects, reducing post-release issues by 20%.

Projects:

SoftCrayons Website Development (01/2024 – Present)

I developed the complete SoftCrayons website from scratch with a responsive and SEO-friendly design. My role in this project was to handle end-to-end development including front-end, back-end, database, and deployment.

- Database: MySQL
- Frontend: React/Next.js, Tailwind CSS, JavaScript, Material UI.
- Back-end: Spring Boot (for APIs and data management)
- Deployment S Server: Hostinger/AWS VPS, Nginx, SSL integration, Gzip/Brotli compression
- Role: Served as Full-Stack Developer in designing, developing, and deploying the website.

CSB Bank Project (02/2023 to 08/2023)

I completed the CTS (Check Truncation System) Project and created a soap API simulator. My role in this project was to create jrxml files and generate them with the help of Java, MySQL, and Zk Studio.

- Central Bank: I received software issues from the team lead. Fixed them, and provided solutions to the client before the submission date.
- Database: MySQL
- Frontend: Zk Framework, CSS, Basic JavaScript.
- Tools: Wildly, Eclipse, SQL developer.
- Role: Served as Asst. Software Developer in development.

BDO Bank Project (08/2023 to 11/2023)

- Role: Served as Asst. Software Developer in a development team responsible for the mission of BDO Bank.
- Responsibilities: Participated in daily stand-ups, providing updates on progress, challenges, and planned work for the day.
- Problem Solving: Identify and fix issues (bugs) in the software to make sure it works correctly.
- Communication: Clearly explained technical details, both in written and verbally, to team members and sometimes to non-technical people.

Education:

Degree/Examination	Institution/ Board	CGPA/percentage
MCA	Chandigarh University.	7.3
BCA	Global Educational Institute, Gr. Noida.	7.2
12 th	Jamuna Christian College, Prayagraj.	70%

Education

- **Skill:** Java, Jenkins, Git, Python, HTML and CSS, Java scrip , Data Structures and Algorithms.
- **Frameworks / Libraries:** Spring Boot, React, Next.js, Node, Redux Toolkit, Hibernate, Zk Studio, Aws.
- **Tools S Technologies:** Linux (Ubuntu), Wildfly, Eclipse, SQL Developer, MySQL, PostgreSQL, Git.

Achievements and Co-Curricular Activities:

Internship :

- 3 Months Web Development Internship at Milestone OS.
- Successfully developed and delivered software solutions, collaborating effectively with teams and consistently meeting projects.
- Identified problems and solved it.
- Developed or implemented new procedures or systems.

Training:

- Conducted training sessions for approximately 300 students at Shree Ramswaroop Memorial University, Barabanki (Lucknow), covering a range of technologies including: Data Structures and Algorithms (DSA), Java Programming, Spring Boot Framework , React.js, Next.js.
- Conducted training sessions for various organizations, including Basic Siksha Academy NGO, focusing on: Fundamental programming concepts, Web development, Career readiness and technical interview preparation.
- Provided mentorship and project guidance, enabling participants to build practical applications and improve coding proficiency.
