Professional Summary

Computer Science undergraduate with strong foundations in full-stack development, system design, and AI-powered applications. Experienced in building end-to-end products from design to deployment, with a focus on scalable, user-centric solutions and real-world impact.

Education

Bennett University

Sep 2024 – May 2028

B.Tech in Computer Science and Engineering (Full Stack Development)

CGPA: 8.21

Projects

SkillAble — AI-Powered Inclusive Hiring Platform

- Built an AI-powered job platform for people with disabilities, addressing accessibility gaps in hiring
- Designed end-to-end system (UI/UX, frontend, backend) with an accessibility-first approach
- Implemented intelligent matching and verification concepts to improve trust and job relevance
- *Tech: React, Node.js, MongoDB, Figma*

Footnote — AI-Driven Knowledge Platform

GitHub

- Developed an AI-based platform to enhance knowledge interaction and structured content discovery
- Designed complete product flow and UI using Figma with a minimal, user-focused approach
- Built scalable frontend and backend systems to support dynamic content handling
- *Tech: React, TypeScript, Tailwind CSS, Node.js*

GetMyHelp — Real-Time Assistance Platform

GitHub

- Built a full-stack platform to connect users with immediate assistance services
- Developed backend APIs for efficient request handling and real-time responsiveness
- Designed intuitive frontend for seamless user interaction in high-urgency scenarios
- *Tech: React, Node.js, Express.js*

Experience

Appenure — UI/UX Design Intern

- Designed user-centric interfaces and wireframes for web applications, improving usability and consistency
- Collaborated with developers to translate design concepts into responsive interfaces
- Focused on intuitive design systems and seamless user experience

Skills

Languages: Python, Java, C++, TypeScript

Frontend: HTML, CSS, JavaScript, React, Tailwind CSS

Backend: Node.js, Express.js

Tools: Git, GitHub, Docker, Figma, REST APIs

Core Concepts: Data Structures & Algorithms, OOP, System Design, Full Stack Development

AI/Advanced: API Integration, Prompt Engineering, AI Feature Integration
