

VAIBHAV NAYAN SRIVASTAVA

Mobile: +91-9643152667

E-mail id: squarebrackets.sb@gmail.com

Professional Summary:

- 10+ years of diverse experience in **Development, Automation, Functional, and Performance Testing** across both corporate and academic training domains.
- Microsoft GitHub Copilot certified, delivering high quality trainings on Copilot.
- Dedicated Programming Trainer with expertise in Python, C, C++, Java, and Data Structures & Algorithms (DSA).
- Experienced in training students at academic institutions, focusing on building strong programming fundamentals and problem-solving skills.
- Skilled at simplifying complex concepts through practical examples, hands-on coding sessions, and structured learning paths.
- Passionate about mentoring students for academic excellence, coding competitions, and campus placement preparation.
- **Certified at the ISTQB Foundation Level**, with a strong grasp of testing principles, lifecycle stages, and quality assurance practices.
- Deep understanding of the **Software Testing Life Cycle (STLC)**, including Requirement Analysis, Test Planning, Execution, Defect Management, and Test Closure.
- Proficient in Automation Testing tools like **Selenium**, and Performance Testing tools such as **JMeter, Gatling, Locust, K6, LoadRunner, and Blazemeter**.
- Hands-on experience with **Agile and Scrum methodologies**, contributing to sprint planning, story grooming, and continuous testing.
- Strong expertise in Python scripting for test automation and framework development, with additional experience in AI/ML-based automation solutions.
- Skilled in **Robotic Process Automation (RPA) using UiPath**, including real-world experience with **UiPath Studio, UiPath Orchestrator, and AI Center** for intelligent automation.
- Actively use GitHub Copilot to boost productivity and accuracy in coding and test automation workflows.
- Delivered individual and corporate training sessions on **Python, RPA, UiPath, and AI/ML** through platforms like **GUVI, MindMajix, KnowledgeHut, BrainMentors, StepUpwards, BoardInfinity, and DASVM Technologies**.

Key Responsibilities:

- Conduct classroom and online sessions on development and testing areas.
- Design and deliver curriculum modules, coding exercises, and assessments
- Guide students in solving problems from competitive programming and interview preparation

- Provide one-on-one mentoring to clarify doubts and strengthen coding skills
- Prepare students for academic projects, internships, and campus placements
- Stay updated with the latest industry trends and best practices in programming

Technical Skills:

Programming:	C, C++, Python, Core Java, Javascript
Core Skill	DSA, DBMS, Web development
Automaton Tools:	Selenium, TestNG, RestAssured, BDD Framework, POSTMAN, UI Path Studio, UI Path Orchestrator, UI Path AI Center
Performance Testing Tools:	LoadRunner (VUGen, Controller, Analyzer), Fiddler, JMeter, Neoload, Gatling, K6, Locust, BlazeMeter
Monitoring Tools:	Splunk, AppDynamics, Watchtower, IBM Heap Analyser, DataDog, Dynatrace
Testing Technique:	Automation Testing, Performance Testing, API Testing
Management Tools:	JIRA, Confluence, HP ALM, Performance Center
Build and other Tools:	MySQL, Jenkins, GIT, Maven
Operating System:	Windows, Mac, Linux

Clients Delivered:

- 1) Delivered online courses to GUVI (an ed-tech platform).
- 2) Provided Batches/Individual training in an online institutes like MindMajix, KnowledgeHut, BrainMentors pvt ltd.
- 3) Delivered Corporate Training to multiple clients for StepUpwards, BoardInfinity, DASVM Technology, NIIT, Hatchetra, Lloyds etc

Educational Qualification:

- Completed Bachelor of Technology in Computer Science & Engineering from A.B.E.S. Engineering College affiliated from U.P.T.U, *Class of 2016*.
- Passed XII Std. from C.B.S.E Board, *Class of 2012*.
- Passed X Std. from C.B.S.E Board, *Class of 2010*.
